Crash testing

Concepts Used

DRIVERGE
VEHICLE INNOVATIONS

The fact we crash test our vans is not by accident.

What we learn makes a big impact.

Every year, hundreds of thousands of dollars and hundreds of engineering hours are invested to assure your conversion van will be as safe as it can be to better protect your passengers, your driver, and even your company.

[Learn more now](#)

DRIVERGE
VEHICLE INNOVATIONS

In our quest to provide the best conversion vehicle possible, we leave nothing unturned.

Rotating a van on a giant spit after a crash test ensures there are no unintended fuel leaks. This tenacity for always pursuing high quality upfits has helped us earn certifications from Ford, Mercedes-Benz, and RAM... and why, as a trusted upfitter, OEM warranties stay in effect on vehicles we convert.

CARB testing

Concepts Used

DRIVERGE
VEHICLE INNOVATIONS

CARB doesn't have to be a four-letter word.

We take the worry out of CARB. Because we test our conversion vehicles so exhaustively, so you can be absolutely confident you won't be in for any nasty surprises that could take your feet off the road in California (or any of the now 14 other states that demand CARB compliance).

OEM Certification

Concepts Used ----- Concepts in Library -----

We are certified by major OEMs, because they've verified our ability to deliver quality. And no matter how big the conversion we do, you can rest assured that every one of them meets or exceeds the OEM's standards for fit, finish, and safety. Not to mention -- OEM warranties stay in effect.

[Find out more.](#)

Service Centers

Concepts Used ----- Concepts in Library -----

We have 300+ service locations across the US. As if all our certifications from major OEMs and extensive testing to ensure quality and safety wasn't enough to give you absolute confidence in purchasing our conversion vehicles, there's also what you get all the way -- more than 300 service centers throughout the nation, including one right down the road from your fleet.

DRIVERGE
VEHICLE ADAPTATION

We go well beyond wheelchairs.

We can upfit for whatever you're transporting.

While our vans can take excellent care of disabled people, they can also secure cannabis buds, handle prisoners, keep busy executives busy, and assure the veal parmesan gets to the banquet piping hot. So we can handle any transport challenge you have.

Just look at a few of the examples below ...

DRIVERGE
VEHICLE ADAPTATION

Our wheels are always spinning.

Whatever you're transporting, we can think up the best conversion van for the job.

We've done it to help plumbers take care of leaky faucets, keep busy executives busy, help install new electrical outlets, and assure the veal parmesan gets to the banquet piping hot. After reviewing some of our results below, contact us to get started on your unique transportation need.

DRIVERGE
VEHICLE ADAPTATION

No. We haven't yet. But we could.
